Professional Summary

Full Stack Developer with 4+ years of experience building scalable SaaS and enterprise applications using MERN and MEAN stacks. Strong expertise in system architecture, REST & GraphQL API design, authentication (JWT, OAuth), and cloud deployment (AWS). Proven track record of improving application performance by up to 40%, leading development teams, and delivering production-ready solutions aligned with business objectives.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Angular, Next.js, Redux Toolkit, Tailwind CSS, Material UI, ShadCN

Backend: Node.js, Express.js, GraphQL, REST APIs, Firebase, Supabase

Database: MongoDB, MySQL, PostgreSQL

Cloud & DevOps: AWS, Docker, Nginx, CI/CD

Testing & Tools: Jest, Supertest, Postman, Git, Jira, Swagger

Work Experience

Geek Informatic & Technologies Pvt. Ltd. | Full Stack Developer

Apr 2024 – Present | Mohali, Punjab

- Designed and developed scalable full-stack applications using Angular/React, Node.js, and MongoDB.
- Architected REST & GraphQL APIs with JWT-based authentication and role-based access control.
- Optimized MongoDB aggregation pipelines and implemented indexing strategies, reducing API response time by 40%.
- Led a team of developers, conducted code reviews, and ensured timely project delivery.
- Collaborated directly with clients to gather requirements and align technical solutions with business goals.

Rudra Innovative Software Pvt. Ltd. | Full Stack Developer

Nov 2021 – Mar 2024 | Mohali, Punjab

- Developed a dynamic admin panel to manage templates and workflows, reducing manual effort significantly.
- Improved application load time by 40% through performance optimization strategies.
- Achieved 98% test coverage using Jest and Supertest, minimizing regression issues.
- Designed scalable backend services using Node.js and Express with secure authentication mechanisms.

Aptron India Pvt. Ltd. | Full Stack Developer Trainee

Aug 2021 – Oct 2021 | Noida, Uttar Pradesh

- Built full-stack applications using the MERN stack.
- Developed RESTful APIs and implemented efficient state management solutions.
- Gained hands-on experience in database design and backend architecture.

Key Projects

ContextQA | Angular, Playwright, Socket ↗

- Developed an AI-powered testing automation platform that analyzes code changes and determines relevant test cases.
- Implemented real-time test monitoring using WebSockets.
- Integrated Playwright for automated end-to-end testing workflows.

ScoutTalent | Next.js, Node.js, MongoDB, AWS, Stripe ↗

- Built a football talent management platform with secure authentication and role-based access control.
- Implemented video upload, filtering, approval workflows, and AWS storage integration.
- Integrated Stripe for payment processing and subscription management.

KiteSuite PMS | Angular, Node.js, MongoDB, Socket.io ↗

- Developed a multi-user project management system with task tracking and role-based permissions.
- Integrated real-time updates using Socket.io.
- Improved responsiveness by 40% and reduced manual workflows by 50% through automation.

ProposalPress | React, Node.js, MySQL, Stripe ↗

- Built an AI-powered proposal generation platform with customizable export features.
- Implemented payment integration using Stripe.
- Designed scalable REST APIs and optimized MySQL queries for performance.

ConnectXLab | Angular, Node.js, MySQL, Stripe ↗

- Developed a community management platform supporting groups, categories, and subscription services.
- Implemented secure authentication and payment workflows.
- Optimized backend services for improved data handling and user experience.

Ravel Merchant | Angular, Node.js, MongoDB, Stripe ↗

- Built a resource and merchant management platform.
- Designed REST APIs and implemented secure payment workflows.
- Improved system performance through backend optimizations.

Education

B.Tech – BBS College of Engineering & Technology, Prayagraj (2017 – 2021)

Dr. A.P.J. Abdul Kalam Technical University, Lucknow
